Magnetic Dress-Up[®]

Magnetic Dress-Up[®] (#SM – 603), distributed through Super Duper Publications, is a magnetic version of paper dolls and it can easily be used with the Gateway[®] page sets. It can be used to help children learn the names of articles of clothing, and improve their expressive language abilities (both syntax and morphology) while learning to describe the dolls within 4 illustrated scenes. *Magnetic Dress-Up* contains 28 magnetic pieces and 8 different girls. Therapists can help children develop their linguistic skills as they talk about these scenes in a fun and interactive way.

Gateway Intervention Goals:

Magnetic Dress-Up - Pool Scene Vocabulary

Activity Description: Using the intervention strategies named above (e.g, modeling, aided-language stimulation) , the child can: (1) use the "Dress Up" vocabulary set to describe the dress up clothing they want the girl(s) in the Scene to wear and then (2) use the vocabulary listed for each scene to "talk" about that scene. The therapist should model target messages and or ask focused questions to help the child learn to form sentences of the targeted grammatical complexity.
