### Sort and Say Magnetic Mealtime<sup>®</sup>

*Magnetic Mealtime*<sup>®</sup> (#SAS – 134) is a game, produced and distributed through Super Duper Publications. It is designed to help children learn the names of “healthy food choices”. It contains a game board (i.e., a placemat and table setting) and 48 magnetic photo food tiles to be placed onto the plate. Forty-seven (47) of the 48 foods are included in Gateway 60 and most of them are in 40. Within Gateway 40 there is room to add needed foods.

The *Magnetic Mealtime* instructions contain well-written ideas of how this game can be used. *Magnetic Mealtime* can be used with Children using the Gateway<sup>®</sup> page set as a tool to teach mastery of these food items in addition to some verbs, pronouns, and articles. No modification to the game is needed.
