Sort & Say Positions[™]

Sort & Say Positions[™] is a game, produced and distributed through Super Duper Publications (SAS#-123) www.superduperinc.com. It is designed to teach twelve positional concepts and ten (10) of these are in opposite pairs. It contains a magnetic game board and 24 magnetic tiles representing each concept twice, once with a dog and once with a cat. All of the concepts are represented in Gateway 40 and 60 and nine (9) are represented in Gateway 20. If the word for the “object” of the preposition is not in Gateway, the pronoun “it” can be substituted.

The *Sort & Say Positions[™]* contains well-written directions on how this game can be used to teach these concepts. It provides 3 different game ideas for how the game board can be used. *Sort & Say Positions* can be used with Children using Gateway[®] as a tool to teach mastery of prepositions without modification to the game or to the Gateway page set.

Gateway Intervention Goals:
